# Director's MESSAGE

In my experience of completing 1544 flats from past 31 years and dealing with various customers, I've observed a common feeling....

“This year I will definitely plan for a home”

But by being engrossed in routine busy life and not having the clarity on budget, selecting the area, mobilization of funds and reliable builder, we are postponing the decision to own a home. As a consequence, the rates are escalating day by day and what we could avail yesterday is not affordable today.

Kindly go through the following table to know the consequences in further delaying the decision.

Year	2000	2005	2016	Future
Price of the Flat in Madhurawada (1000sft)	Rs.3,00,000/-	Rs.8,00,000/-	Rs.30,00,000/-	
Salary (per month approx)	Rs.10,000/-	Rs.15,000/-	Rs. 30,000/-	?
Loan eligibility	Rs.5,00,000/-	Rs.8,00,000/-	Rs.15,00,000/-	
Affordability	165%	100%	50%	
Monthly Installment (for loan)	Rs.4,000/-	Rs.10,000/-	Rs.20,000/-	

In 1990's, we were surprised to know that few flats in Mumbai costed Rs. 1 crore. Today, they cost Rs.18 crores. At present, even in vizag, few flats cost Rs.1 crore.

Imagine the future....

“ A person who  
visualises the  
future will have  
accomplishments  
in life. ”
