THE POINT
A PROJECT BY TERMINUS
AT BOLLUR, HYDERABAD

A

PRIVILEGED

POINT

OF

VIEW

A secure, serene sanctuary

The inspiration behind a unique concept of community living is a group of distinguished citizens – an elite group whose principles and values have helped build the nation.

Now, they have come together to create The Pointe – a premium gated community of low - rise villas within a secure environment in Gollur, Hyderabad.

The entrance
to The Pointe
is nothing
short of
exquisite

The grand entrance to The Pointe

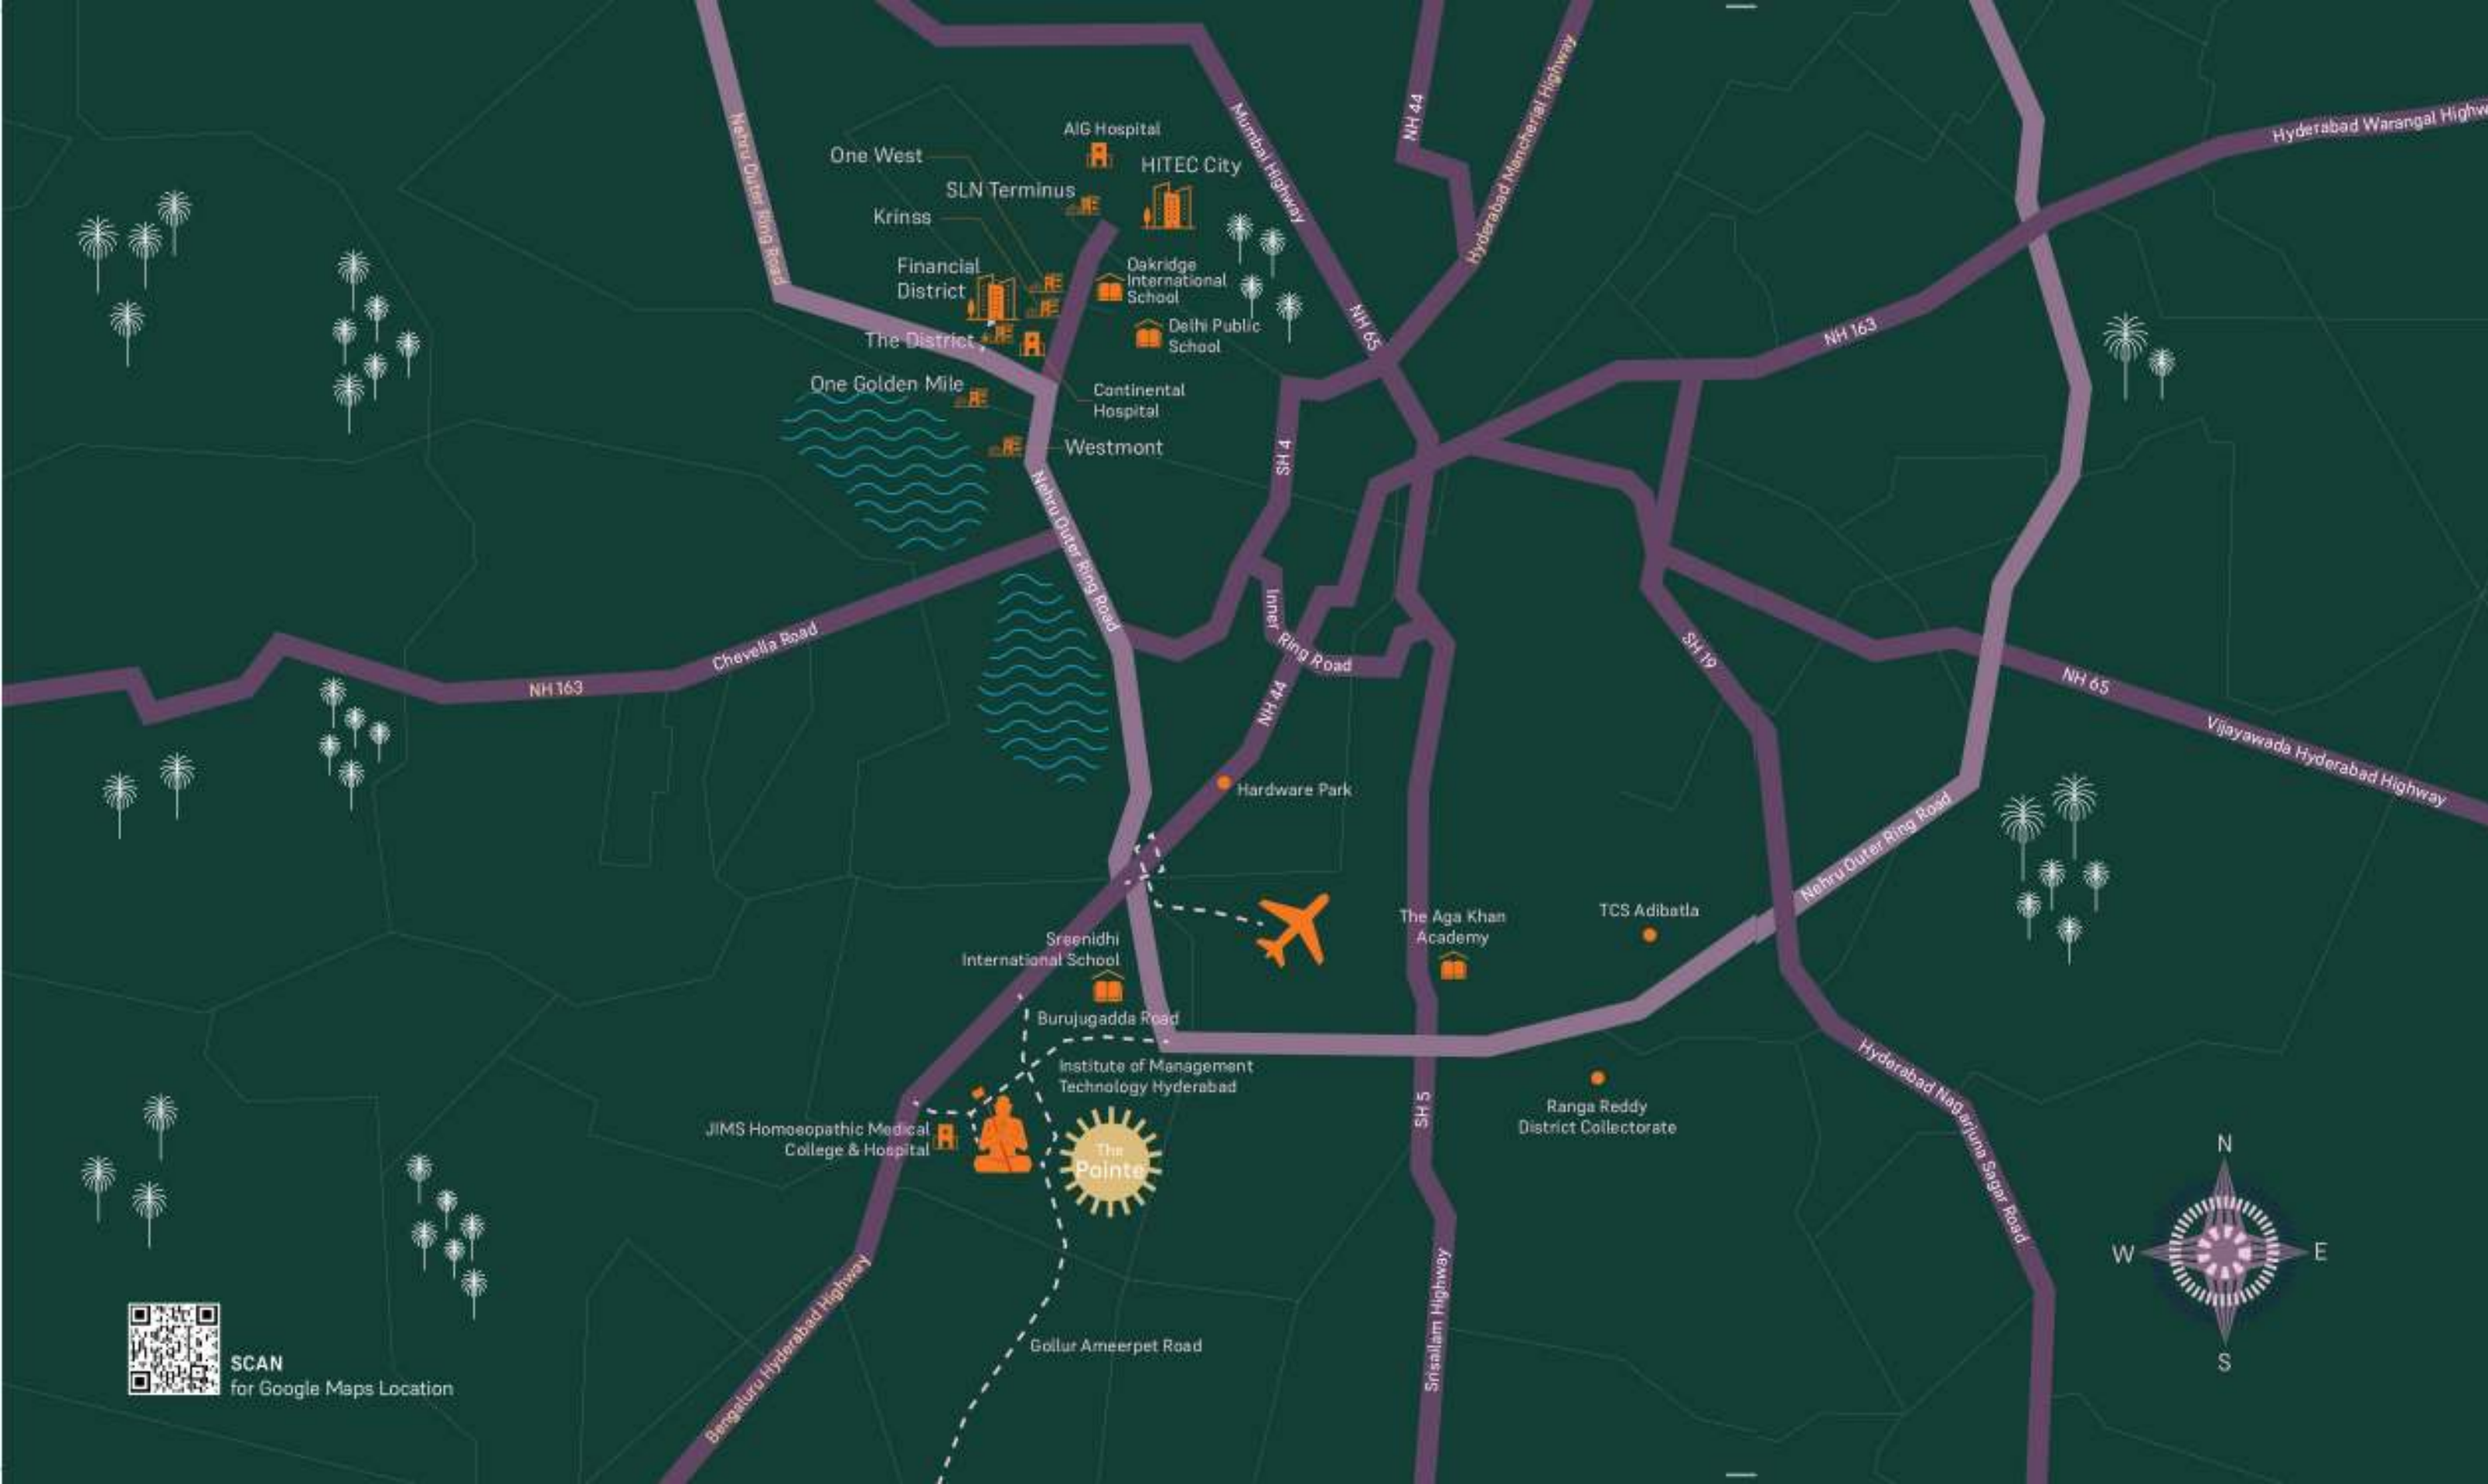

The advantage of being near, yet far

The Pointe is located just 17 km south of Rajiv Gandhi International Airport and close to the Statue of Equality which is visible from the villas. The site, on the Gollur-Ameerpet Road, is also a mere 10 km from the ORR and a 20-minute drive to the CBD HITEC City. With connectivity assured, these villas, in a secure gated community, are designed to be spacious and modern within a green and tranquil environment. The Pointe is, thus, close enough to the city. Yet, far from the maddening crowd.

- 17 Km / 21 mins >> Rajiv Gandhi International Airport
- 04 Km / 08 mins >> Statue of Equality
- 10 Km / 15 mins >> Nehru Outer Ring Road. Exit 16

SCAN for Google Maps Location

Neighbouring the Statue of Equality

DISTANCE >> 4 KM

The landmark Statue of Equality is located just 4 km from The Pointe and is the second tallest sitting statue in the world at 216 feet (66 m). It is dedicated to the 11th century Vaishnavite, Shri Ramanuja, who fought against social, cultural, gender, educational, and economic discrimination. Inaugurated in February 2022, the Statue of Equality is already a symbol of pride and a must-visit icon in Hyderabad. For residents of The Pointe, this iconic landmark is very much in the vicinity and symbolises the spirit of equality that will bind all its residents.

BECAUSE THIS IS WHERE YOU BELONG

With a large number of villas occupied by some of the finest individuals, your neighbours will be from an elite group consisting of NRIs, Corporate Executives, Doctors, Entrepreneurs, Businessmen and other high-net worth citizens.

Living among this select group, watching your children grow up with others from a similar background and seeing your elderly dependents mingling with peers of similar vintage...

just some of the reasons to actively consider investing in The Pointe.

THE

CENTRAL BOULEVARD

Packed with privileges

Each villa at The Pointe is designed to offer luxurious living in a green environment. The resort-like residences have been conceptualised to offer residents a sanctuary away from the hustle and bustle of daily mechanical lives.

Starting with The Foyer, a 30,000 sqft. contemporary clubhouse located at the entrance, to open green areas, a Central Boulevard, service back alleys and many other little details, the project comes inbuilt with privileges that will set you even further apart from the milieu.

THE CENTRAL BOULEVARD

Lined with neatly landscaped trees, the Central Boulevard forms the main spine and is the main driveway from the entrance. It separates the villas into North and South zones, within which lie clusters of 10 villas each.

A confluence of style and sensitivity

The roundabouts with signature sculptures

Three nodes greet residents and visitors at various points along the Central Boulevard: each one is distinctive with a unique sculpture and lighting installation.

Roundabout sculptures

A plan point of view

With just 183 villas spread over a 37 acre plot, homes are available for a special few. Living here will ensure that residents are among a privileged community of distinguished citizens and bureaucrats who represent the finest in our society.

Every villa is a G+2 structure and is Vastu-compliant. Some face West, others East. And while plot sizes vary, what doesn't is the attention to detail when it comes to planning the layouts.

Aerial view from south-west side

A perfect balance

Every villa is designed such that its elevation is an aesthetic balance of modern classic architecture and contemporary minimalism. Sensitive combinations of mass and fenestrations give the villa a timeless composition that will blend well with the project landscape.

The façade of each villa is treated with travertine stone which is proven for its imperviousness to outdoor conditions, this accentuating a natural elegance depicting modernity and class with a refined aesthetic touch.

The colour palette selected for the façade includes hues that express elegance and the sophistication of the villa. The vertical golden grouting on the façade adds to this. The façade projections and the glazing go hand in hand to establish the luxuriously grand scale of the villas.

The portico – with a large opening defining the villa entry – accommodates parking, and a vertical garden transforms it as a welcoming space.

The façade projections cut down the direct light acting as a shading device to maintain ambient light throughout the day. Large openings flood interior spaces with adequate daylight whereas, at night, the interior lighting illuminates the façade. These openings provide a visual connect to the cluster greens.

9000 sqft, 800 sqyd villa

The exquisite porch adjoining the main entry of the villa opens into the ground floor.

Villas offer privileged views of the soothing and serene green pockets. Blending the outdoor and indoor space experience, the cluster greens add to aesthetics. The villa's design follows eco-efficient design principles ensuring year-round comfort for residents.

4250 sqft, 450 sqyd villa

Residents are welcomed by the drawing room and the spacious living hall which leads into the open plan kitchen. The dining area and guest bedroom are planned around the living room for seamless functionality. The entrance is a double-height living space with an iconic straight staircase that connects the lower floor with those above.

Living room

Its C-shaped footprint makes the most of the natural light providing a bright and airy feel throughout its three floors. A double-height living space is provided to enhance the volume of space.

Drawing room

A lavish kitchen which can be partitioned into a dry and wet space.

Kitchen & dining

MAKE ROOM FOR LUXURY

The first-floor space is entirely dedicated to the master bedroom, en-suite bathroom, wardrobe and two other bedrooms for optimum calm and privacy accessed by a stylish staircase.

Master bedroom

The bathroom is designed to be a space to unwind in with contemporary fittings and fixtures that make it truly luxurious.

Master bathroom

Live with pride in a home that is carefully planned for the family you cherish.

The second floor has a home theatre, gym, bar lounge leaning on to private terrace with views of the cluster greens and its surroundings.

Home theatre

The spacious, open-plan living area features floor-to-ceiling windows offering a seamless connection with the expansive terrace – perfect for outdoor seating.

Work out without stepping out, thanks to a gym on the second floor of your villa.

Pocket greens—part of each cluster, boost interaction among neighbours and help them partake in social activities to create an overall community atmosphere.

A Central Promenade divides the site into Northern and Southern segments which are further divided into clusters. The unique cluster planning ensures that with each villa opens into pocket greens that keep all the valuable aspects of Vastu Shastra intact. Villa residents can watch over their children playing in the pocket greens from any room unlike conventional projects where parks are located at one place and the houses are planned to face each other.

Each cluster is designed to meet the standards of the Golden Ratio, which ensures that there is overall balance of built and open spaces. The balance between building height to the park width in front ensures that each villa gets maximum views overlooking the green space in the centre of the cluster, the pocket greens. Moreover, the villas are aligned with the longer side facing the pocket greens so that each room in the villa gets green views.

Back alleys are the service corridors through which the sewer, WTP, electrical lines run through. Domestic help, deliveries etc will be directed to use the back alley. Special attention has also been paid to ensure that restroom amenities for domestic help and driver are accessible from outside the villa. Clusters are interconnected with a walkway of 3m width throughout the site making it a 1.7 km all-round walkway.

The two centrally located Major Greens (one acre each) and Central Promenade divide the linear site into four segments which provides excellent breathing spaces unlike any other project in the market.

Pocket greens

The Privilege of Amenities

CLUBHOUSE

THE FOYER

The green landscaping at "The Foyer" is being designed to attract butterflies and birds that will naturally enhance biodiversity. For residents, coming home to such a luxurious and lush environment will immediately bring a sense of calm and tranquility.

The Foyer is a shared clubhouse amongst the residents, equipped with a banquet hall, a fine dining restaurant, a library, meeting spaces, quiet gardens, a swimming pool, gym, indoor and outdoor sports and activities, guest suites with private balconies, and provisions for a dry-cleaner, grocery store, pharmacy, salon and spa which make the clubhouse relevant not merely as a place for recreation but as a facility that addresses the daily needs of residents.

The Clubhouse Entrance | Day View

South entry of the clubhouse

CLUBHOUSE

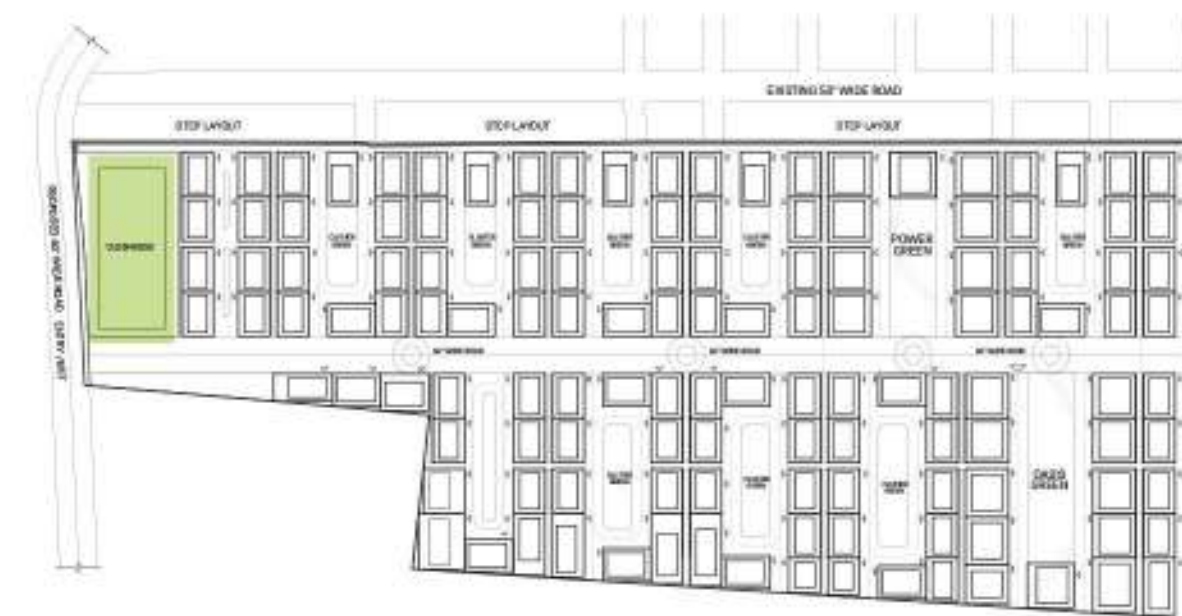

The Foyer is a true community amenity with a program developed to address a range of functional needs of the residents.

A place for all

Central to a gated villa project, lies its community. And community spaces are often the glue that hold people together. The clubhouse named "The Foyer" at The Pointe has been conceptualised as the epicentre of its community. The Foyer is designed with the fundamental aim of bringing people together and will serve as the entry gateway. The building is designed to extend over the gate, serving as the vehicular and pedestrian entry into the community. The clubhouse is built as a linear two-storied building with functional spaces interspersed with areas for interaction.

View of the gateway

A Banquet hall for your special moments

Abutting the public street, the banquet hall can accommodate for 250 people and is the ideal setting for large events such as birthdays, engagement parties and festivals. With an attached commercial kitchen and open lawns, it offers ample parking, a well-designed drop-off area and interiors with optimal lighting and acoustics.

Banquet hall, ground floor

South entry of the clubhouse

**Cafeteria for when
you want a change of
space or simply a place
to spend outside of
your home**

Located at the entry to the clubhouse, easily accessible from the main avenue, the café is designed to serve as a social hub, an ideal space for chilling and hanging out with friends and family.

Reception and lounge

A swimming pool set in a tropical setting

The ground floor comprises a sequence of spaces that blend into each other seamlessly. The swimming pool, however, is the heart of all activity, and is surrounded by seating, outdoor dining and interactive spaces.

A tennis court to support your fitness goals

Two regulation-size outdoor tennis courts on the terrace and two regulation-size indoor badminton courts are provided on the third floor. Other sports facilities such as table tennis, badminton court, carrom board, snooker and billiards are spread throughout the second and third floors.

GREEN

the new colour
of privilege

The landscape design initiative is inspired by the theme of 'Harmony with Nature'. Two major green areas—one passive, one active are accessible from the Central Boulevard via confluences that also serve as points for social interaction and are the jewels in this crown. They are complemented with pocket greens in each cluster and are connected to each other with a pedestrian connector on both the north and south sides.

PASSIVE ZONE

Oasis Green

Relax at the cafeteria or enjoy a quiet and peaceful walk in our passive zone, lined with leisurely spaces to rest in.

Oasis green

Oasis green

ACTIVE ZONE

Power Green

The second one is on active green zone providing health and fitness with playing fields and outdoor gym equipment.

CAPABILITY MEETS COMMITMENT

The Pointe is the confluence of some of the finest minds in the architecture and design industry. When the eminent land owners who acquired the land briefed the builder, Terminus Group, it was clear that we were looking at a project where dedication and detailing would intersect.

BUILDER

Terminus has a proven track record of creating luxury, retail and corporate properties. It has been associated with marquee brands in the hospitality segment such as Marriott. Four million sqft have been constructed and handed over by Terminus; six million sqft are in the pipeline.

CLUBHOUSE ARCHITECTS

From its studios in San Francisco, Bangalore and Hyderabad, they refine logic and reasoning to a fine art where every project has a style with soul.

PMC LANDBASE CONSULTING

Landbase Consulting is a multi-disciplinary project management services company offering custom-made solutions for all land development, construction project management and engineering requirements.

This organization is largely built on four pillars of integrity, ethics, values and transparency, which are essential to be an extension of a client's interests and success in their ventures. They provide every service from inception to completion ranging from new premises to high quality refurbishment of existing sites.

ARCHITECTS

Team One is a prominent architectural firm in India with a 100-member strong unit of fine architects and designers. They have been conceptualizing distinctive homes and inspirational civic, cultural and commercial projects since 1992.

LANDSCAPE

With landscape and environment planners and architects based in New Delhi, IPDMS provides services including master planning, landscape and building design, site planning, external services and overall site management for embassies, office campuses, industrial townships, hotels, hospitals and commercial complexes.

ZAKI ASSOCIATES

Zaki & Associates (Structural Engineers) started in 1968 in association with M/s Tameer Consulting Associates and later developed this firm with full-fledged services in structural engineering in 1994. Since then, it has developed multiple clients in a short span of 25 years and is among the leading structural engineering firms in Hyderabad.
