Sector 25, Sports City, Yamuna Expressway

The greatest civilisations in the world have always settled around its greatest water sources. Rome was settled around the Tiber. Persia came up around the Euphrates, Tigris and Indus. The Egyptian Civilisation came up around the Nile. Over time, it has become the most basic of human instincts to feel at peace and calm around a water body – the source and nurturer of all life.

A shinning array of limited edition homes built for connoisseurs. Homes made on timeless modern architecture. Elaborate, symmetrical, detailed Prestihum apartments rise tall in their stature and bring back the charm of yore.
