One of the
Greenest Group Housing Projects
on the Planet

Bordering almost infinite (over several lacs acres) of
continuous green belt (Delhi & Gurugram Master Plans)

I love the flowers
I love the trees
I love the incense
Of the fragrant breeze

Those wonderful years
Of Childhood, ran free
A little swing,
a banyan tree

I wish to someday meet again
Wilderness caressing my soul
Near to nature, yet Near to life
Sweet memories created whole

Finally I have found today
A Haven where dreams can fly
Yes its my Magical Home-Sweet-Home
A Forest in the Sky

Slow down now,
Let your soul revive
After years of sleepwalking
You're again Alive !

Vanya is a stimulating fusion of eclectic thinking, structural dynamism and international parameters. The magnificent edifice owes it's conceptualization to Aedas Singapore, the world renowned architectural and design powerhouse.

The company believes in understanding the socio-cultural structure of the local community before conceptualizing a new project. An axiom that helped Aedas to establish it's imprints in 20 countries, 24 offices and employing 1820 employees across the world.

Presenting
 **RAHEJA**

VANYA
FOREST IN THE SKY

For the first time in history of India, a project with a Solar, Open and Green vs Land ratio of almost over 100%

Optimizing the balcony sizes, means that we get a clean glass facade unlike any other in the city.

THE DESIGN

An iconic design philosophy of creating lush manicured public areas interspersed within the complex inspires social and communal interaction at various locations within the buildings. The well balanced harmony of light, ventilation and greenery makes superlatives a part of the ordinary.

And life worth celebrating!

LIGHT:

The positive energy of light radiates prosperity and wealth to your home. The orientation of the interconnected towers allows for an interesting interplay of light.

VENTILATION:

3 side open apartments stream natural lights and fresh air as you look out to vast open green spaces and manicured lawns and gardens.

GREENERY:

The exotic soft scapes and hard scapes are detailed to the tee and ensure that you are surrounded by the softness of greenery from the moment you arrive at Vanya till you reach your home. Green is the new Gold!

Instead of having dark and closed core areas, we opened up the buildings in a diamond shape to create natural lighting and air-flow both vertically and horizontally.

A naturally lit core leads to lesser maintenance charges by avoiding artificial lighting and air-conditioning in the lobbies. Private hanging gardens every few floors gives the feeling of living in a Forest in the sky.

Designated areas for greenery in the core areas mean that no matter which floor you live on, you open up to well-lit lush green areas outside your apartment. Community green seatings for morning outdoor tea and news reading with neighbours.

An open core philosophy leads to every apartment being 3 side open in spite of having 8 apartments per core.
