Nxt is Now

PRM/KA/RERA/1251/308/PR/020923/006235

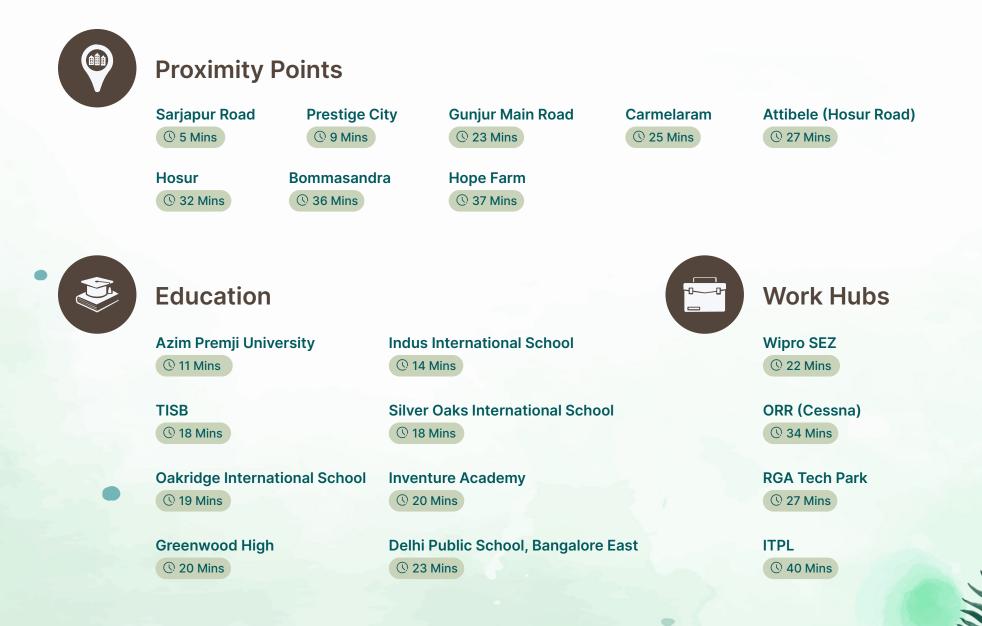

It's natural to think about what comes Nxt. We make plans, have dreams, and talk about the things to come.

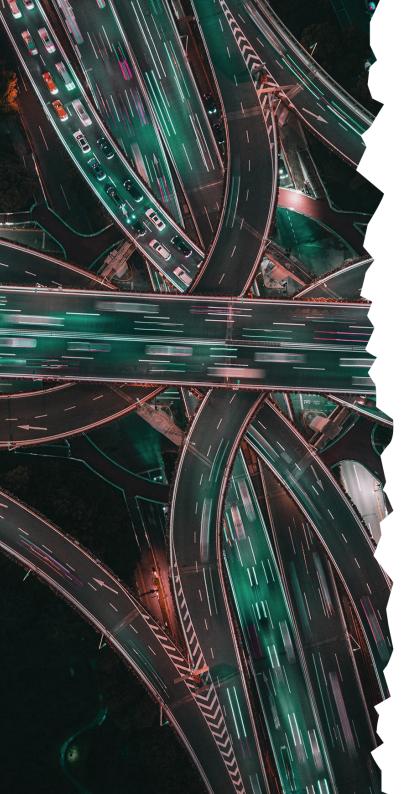

Here's a chance to choose your Nxt and choose better. With high rises being constructed at an accelerated pace; we at Tattvam decided to take a step forward while being rooted to our core. Assimilating the concepts of sustainability, biophilia and green living. NatureNXT's offers 132 lots of land nestled on the cusp of future growth - the STRR. NatureNxt has huge, verdant open spaces spanning well over 94,000 square feet. NatureNXT is future proofed for seamless connectivity, providing an ideal equilibrium between urban convenience and natural allure.

> Carefully crafted to help you escape the chaos of the urban sprawl. NatureNXT is Tattvam's ode to finer living.

Nestled on the cusp of growth with the rapidly progressing STRR at the doorstep ensuring seamless connectivity to the nodes of growth. NatureNxt is future proofed for seamless connectivity, providing an ideal equilibrium between urban convenience and natural allure.

Your Nxt begins here

Now and the Nxt

NatureNxt is on the cusp of the most exciting growth corridor of Bangalore. Located off Sarjapur Road at the cusp of the STRR and NH207, NatureNxt offers comfortable access to the top IT hubs, entertainment and lifestyle options and the best schools Bangalore has to offer, with seamless connectivity. Stay in proximity to all that matters while living in a pristine and vibrant environment.

Senior citizen zone	* Parcourse	Sensory park

• Pedestrian paths laid with Fly Ash pavers shaded with green aiding enhanced water absorption

Estate Plots &

Design Guidelines

Ensuring a cohesive and green community with emphasis on street scape and architectural consistency

Security

- 24-hr CCTV surveillance.
- Manned security 24/7
- 2m compound wall extending throughout the property

S

Electricity & Distribution Network

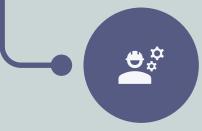

Power supply through underground cables with transformers, RMU (Ring Main Unit) and feeder-pillars for internal distribution

Master Plan

- Landscape concept by Cracknell, UK
- Well planned road and pedestrian circulation with emphasis on green zones
 - E

Water and Sewage

- Water supply is through a hydro-pneumatic system, ensuring constant pressure to all plots
- A well-planned STP and usage of grey water for landscaping
- A network of saucer drains and holding chambers for rainwater harvesting ensuring maximum retention

Maintenance

- Native foliage ensuring easy maintenance with an interplay of hard and soft landscaped zones
- Reduce & recycle ethos through grey-water re-usage
- Efficient usage of renewable energy ensuring lesser
 maintenance costs
- Organic produce from farm to table for the community

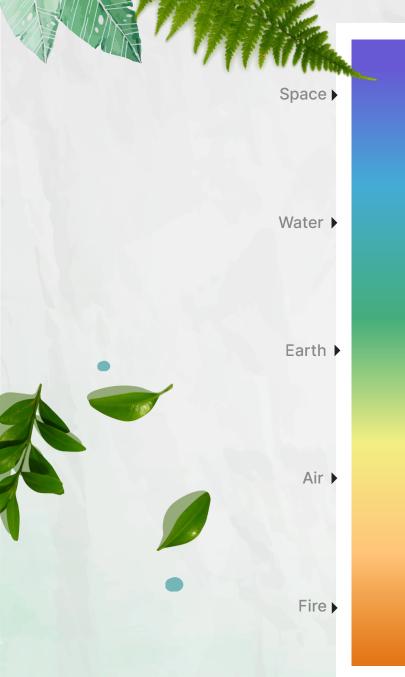

Now that we done with 'What', 'When', 'Where', let us explain the Differentiator

Quest of Perfection

Innovation in Design

A new paradigm of living

Rooted in the ethos of Sustainability

Why the five elements?

The five elements of nature represent the fundamental aspects of our existence, encompassing our physical bodies and the natural world that surrounds us.

When the dynamics of these elements remain steady and balanced, the flow of energy and harmony of life are synchronized. We aspire to establish **NatureNxt** as a project that helps you balance these five elements within yourself so as to help you lead a harmonious life that is in sync with nature.

At **NatureNXT**, we embark on a journey to enhance and redefine the Quality-of-Life spaces by integrating the five elements of nature.

We at **Tattvam**, have carefully crafted our clubhouse, parks and other amenities by assimilating these aspects of nature which not only **allows us to promote sustainability/biophilia** but also helps us foster the harmonization of oneself with the surrounding environment.

...foster the harmonization of oneself with...

TATT Where the elements come together

Amidst the clubhouse's walls, a tale unfolds. In design and ideation, we sought their embrace, Creating a haven, a harmonious space.

Earth, the foundation, steady and secure, Within the architecture, its essence, pure. With natural materials, we sculpted and shaped, A grounded retreat, where you can escape.

Air, a gentle breeze, circulates through, In open spaces, where life breathes anew. Ventilation embraced, bringing life's flow, Inviting serenity with each gentle blow.

Fire, the spark, igniting hearts' fire, A hearth in the center, a soul's desire. In warm hues and flickering lights, In unity and joy, our spirits take flight. Water, the essence, a tranquil retreat, A pool's reflection, where troubles deplete. In cascading fountains, soothing and calm, A space to rejuvenate, a

healing balm.

Space, boundless horizons, stretching wide, In vastness, imagination takes its stride. With artful spaces, where minds may roam, Unleashing creativity, our spirits bloom.
