Inspired creativity of architectural design

Engineering and planning that elevate to the level of art make SAWASDEE JLG GALLERIA a wonder to behold.

An amalgamation of neo-classical and post-modern architecture punctuated with Greek murals and columns with signature of Roman detail in the arches, the sheer scale and grandeur of the structure is an awe-worthy sight. An open piazza provides an obstruction free view with retail at the lower floors of the building and a high-end hotel with exemplary amenities above it.

Exquisitely modern yet functionally brilliant, the destination will be an extraordinary breath of change.
