exciting recreational avenues to an infrastructure
that is close to international benchmarks for
excellence, DLF 5 has it all and more.

The Crest is a rare opportunity to become
a part of DLF 5 and celebrate life at
this world-class community.

DLF 5

An unparalleled location

The DLF 5 community features numerous choices to live, work and play luxuriously.

Residential lifestyle reaches new heights here, with renowned condominium communities as The Aralias, The Magnolias, The Belaire and DLF Park Place amongst others. These homes are occupied by a high profile, culturally diverse and well-travelled set of residents who have chosen DLF 5 as their home.

Some of the region's most prominent businesses are located in DLF 5, along with cutting-edge destinations for health care, quality education, and community facilities on par with those in the world's top cities.

The South Point Mall offers exciting shopping and dining options. This is the home of the upcoming Horizon Center complex, a unique development that will house the headquarters of top multinational corporations. The Horizon Center will also host a super-luxury shopping mall with top global retail brands.

The neighborhood is flanked by the DLF Golf & Country Club which has two signature golf courses- an 18-hole Arnold Palmer design (adjudged multiple times as the best golf course in Asia) and a new golf course by Gary Player which will debut soon. DLF 5

Built for the future

At the heart of the DLF 5 experience is the master planning which integrates global best practices in city living.

A very strong emphasis has been placed on safety, accessibility and sustainability.

To cater to the growing vehicular traffic, the Ch. Raghvendra Singh Marg (erstwhile Golf Course Road) is at an advanced stage of being upgraded to a 16-lane, signal-free expressway. This will drastically cut down travel time from the National Highway-8 and other surrounding areas. Apart from being beautifully landscaped, all services along the road will be laid underground, minimizing the need for frequent digging. This urban road system will be further connected with the proposed Rapid Metro system.

DLF has engaged international security consultants to enhance the safety of the residents of DLF 5. The area is monitored 24x7 via surveillance cameras installed in the external public areas and secured by trained Quick Reaction Teams. DLF 5 also houses one of the country's only 2 private fire stations (both set up by DLF). These are equipped with some of the most advanced fire-fighting equipment and are manned by teams of highly experienced personnel.

With an eye on long-term sustainability, DLF 5 has set up a large Sewage Treatment Plant (STP) that caters to all irrigation and construction needs of the area thus helping conserve this precious natural resource. Moreover, this STP addresses the plumbing needs of some of the DLF 5 residential condominiums.

When you own a home at The Crest, you own a part of the DLF 5 lifestyle.
