

TARC
Kailāsa

PATEL ROAD, NEW DELHI

Kailāsa

One who bestows peace.
Abode of lord Shiva.

Welcome to TARC Kailāsa
the ultimate destination and the supremely pure abode.

An ode to divine serenity and modern sophistication.

Amidst the traditional echoes of enduring wisdom, Kailāsa became a sanctuary where even the mighty Lord Shiva found solace within Kailāsa. Following this celestial spirit, the TARC Kailāsa unfurls as an architectural ode to tranquillity.

Here, every breath orchestrates the rhythm of time, crafting not just homes but a sanctuary that transcends the confines of physicality and dimensions. It's a voyage into the discovery of your inner sanctum — a tranquil haven where the privileges of contemporary living converge. At TARC Kailāsa, the journey concludes with the harmonious symphony of peace and modern indulgence.

At TARC Kailāsa, own the most
priceless space - your mind

Embark on a journey into a living masterpiece that seamlessly weaves age-old wisdom and grandeur. TARC Kailāsa transcends the ordinary, presenting a flawless fusion of Indian wisdom and aesthetics. It stands as a poetic celebration of an extraordinary lifestyle, a canvas of indulgence where every nook is adorned with meticulous detail, shaping not just a sanctuary but a haven for the mind. Arriving at TARC Kailāsa is an experience of unmatched elegance, exclusivity, and extraordinary distinction.

The synergy of cosmic energies

Rooted in the elements of the Vedic science of Vastu Shastra, we have created thoughtful homes that harmonize the energies of Earth, Fire, Water, Wind, and Sky with meticulous precision. Our homes are a gateway for positive vibrations, and fostering a balance that transcends the physical realm to offer a holistic and harmonious living experience.

Fire (Agni)

In the realm of design at TARC Kailāsa, the element of fire, Agni, illuminates a path of warmth and vibrancy. Homes are meticulously oriented to receive direct sunlight, ensuring not just illumination but a daily infusion of natural vitality. The play of light becomes a dance, choreographed to create spaces that are not just dwellings but sources of constant energy and life.

Water (Jal)

TARC Kailāsa's design is inspired by the ingenious concept of Indian step-wells, embodying the element of water, Jal. Emulating the life-giving attributes of these ancient structures, the architecture seamlessly incorporates fluidity. Pools, fountains, and water features intertwine, crafting an atmosphere of abundance and tranquility.

Earth (Prithvi)

Rooted in the element of Earth, TARC Kailāsa resonates with the stabilizing force of the planet, featuring a lush natural forest cover intricately woven into a six-layer plantation. More than just sustainable, the project is immersed in this authentic ecosystem, seamlessly blending modern living with the untamed beauty of nature.

Space (Akash)

Residing here is a fully immersive encounter with awe-inspiring 360-degree panoramas. Nestled alongside the expansive greenery of the Delhi Ridge, recognized as the lungs of New Delhi, TARC Kailāsa resonates with the element of air, Akash. Its close proximity to this luxuriant verdant landscape fills the air with purity and a profound connection to nature.

THE LOCATION

Connected to the past,
present and future of Delhi

TARC Kailāsa is a timeless masterpiece that links you to tomorrow's global communities, today's urban pulse and the iconic landmarks of yesteryears. Its direct entrance from Patel Road seamlessly merges with the contemporary rhythm of the city. Proximity to New Delhi Ridge envelops you in pure air, honouring the city's historic charm. The panoramic city views from Kailasa's vantage point amplify its urban allure, crafting an oasis that resonates with the past, present and future of New Delhi.

The most prestigious address of New Delhi

TARC Kailāsa stands as a symbol of luxury on the best location of Patel Road New Delhi, strategically positioned right on the Patel Road. At the project entrance, the expansive Patel Road serves as the main artery to Connaught Place, ensuring connectivity to key locations.

Right on the Main Road.

TARC Kailāsa is located iconically on Patel Road.

Patel Road - Main Artery to CP

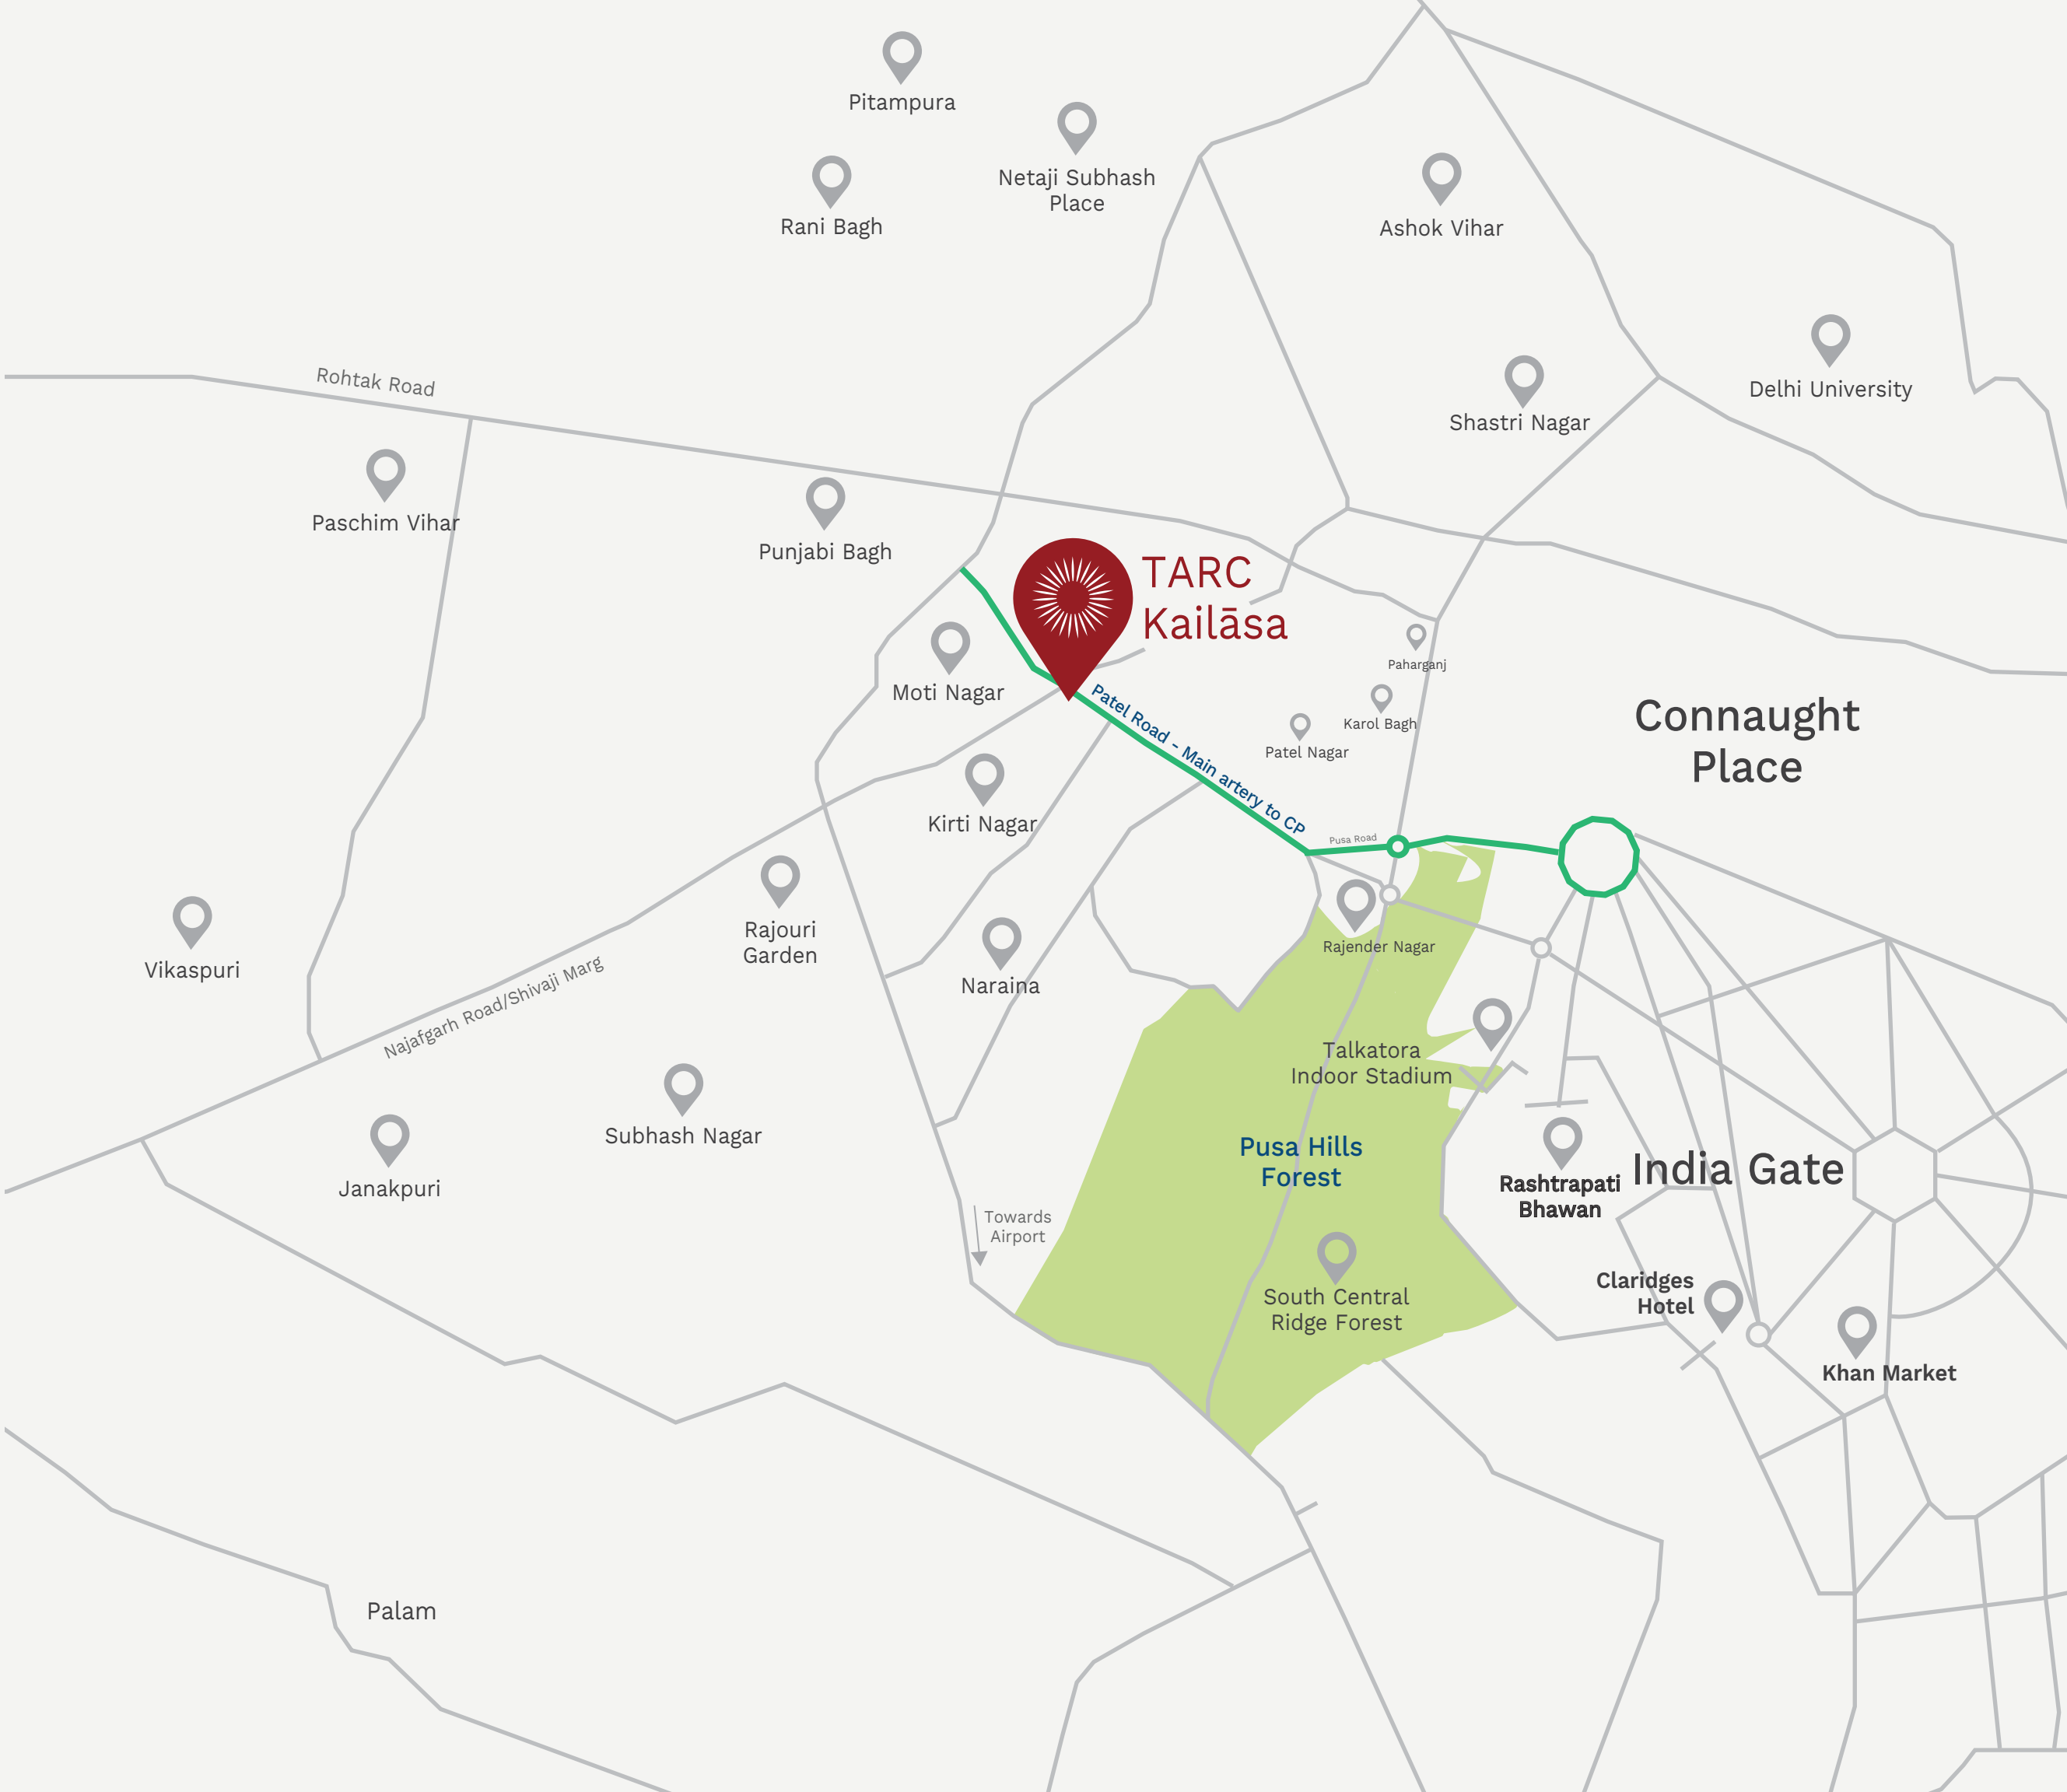

Patel Road serves as the main artery to Central Delhi, ensuring effortless access to all major destinations.

84-Meter Wide (ROW) Road

An expansive Right of Way ensures a grand entry, setting the stage for a lifestyle that dares to dream big.

Proximity to Delhi Ridge

Experience the refreshing embrace of nature, just a stone's throw away from the legendary Delhi Ridge.

The core of New Delhi. The soul of India.

TARC Kailāsa, spanning more than 6 acres, epitomizes urban living entwined with natural serenity, right in the hub of the capital. It's perfect for those who want a green haven with the privileges of city living. Just moments from New Delhi's cultural gems and with seamless access to all the major hotspots and metro lines, commuting is a breeze. Not to forget, you are minutes away from all premier medical and educational institutions.

THE ENVIRONMENT

A grand homecoming. Every time.

At TARC Kailāsa, you are greeted by an opulent Indian magnificence. Whether it's the majestic entrance or the lush expanse of greenery, the atmosphere creates a sense of your own exclusive sanctuary. The project is accessible directly through one of the widest roads in the vicinity, which seamlessly guides residents from the city's hustle to their exclusive haven.

A lush green canopy and meticulously designed spaces create a welcoming ambience, setting the stage for the serenity that lies within. Safety is paramount, and Kailasa ensures offering residents a protected living environment. Underneath the metro line, a curated garden not only serves as a visual barrier from Patel Road but also acts as a natural barricade against noise and pollution. Vertical gardens on metro columns integrate nature into urban living, making the entrance not just a gateway but a majestic portal to an extraordinary lifestyle.

A sea of greens and blues.

Discover TARC Kailāsa's essence in nature's lush greens and serene blues, a haven where six layers of greenery and water bodies inspire tranquility. At the heart of TARC Kailāsa lies a community-driven space, echoing historical courtyards, which foster relationships across generations. Welcome to a space where greens and blues embrace, and community bonds thrive.

Olympic Length Temperature Controlled Pool

Dive into luxury at TARC Kailāsa's Olympic-length temperature controlled pool, spanning 50 meters of indulgence. With precise temperature control, every swim becomes a refreshing experience, offering the perfect blend of fitness and relaxation. Discover the joy of swimming, tailored to perfection at TARC Kailāsa.

Hot & Cold Jacuzzis

Indulge in the epitome of relaxation with Hot and Cold Jacuzzi. Immerse yourself in the soothing embrace of warm bubbles or invigorate your senses with a refreshing dip—where rejuvenation meets luxury in a symphony of thermal opulence.

Kids Pool

Witness the joy of your little ones as they play in the Kids Pool Area at TARC Kailāsa - an aquatic paradise filled with laughter and dreams. With rounded pool corners ensuring added safety for children, this space is not only secure but also a perfect haven for creating lasting water memories for young hearts.

THE FACADE

*Awe-inspiring.
Inside out.*

Elevating the art of architectural excellence, the facade of Kailasa stands as a testament to refined luxury. A harmonious blend of contemporary design and plush aesthetics, it captivates with its grandeur. The meticulously crafted exterior mirrors a vision of sophistication, creating an iconic silhouette against the city skyline. Every detail, from the distinctive lines to the use of premium materials, showcases a commitment to elevating living to an unparalleled level of elegance. Kailasa's facade is not merely an architectural marvel, it is an embodiment of extraordinary living and visual allure.

TARC Kailāsa elevated living: above and beyond the ordinary

Starting above the Metro corridor, TARC Kailāsa's tower apartments redefine urban living. Elevate your lifestyle to new heights, enjoying privacy, breathtaking views, and a sanctuary away from the bustle below.

Grand arrivals

Your journey begins with TARC Kailāsa's expansive and covered tower drop-off, accommodating multiple vehicles. Modern materials, double-height curtain glazing, and high-end flooring adorn the entrance, setting the stage for a luxurious welcome.

SEVEN-TIER SECURITY

Seven-tier fortress, where your peace of mind ascends to heavenly heights!

Indulge in serene tranquility at TARC Kailāsa, where true peace of mind meets uncompromising luxury. Elevating your safety to unparalleled heights, our 7-tier security system surpasses standards, ensuring a haven of worry-free opulence in every meticulously designed building. Your gateway to effortless luxury living awaits at TARC Kailāsa.

CCTV

Surveillance is enhanced through a comprehensive Closed-Circuit Television (CCTV) system, providing vigilant monitoring.

Boom Barrier

Controlled entry is ensured with the implementation of boom barriers, enhancing security measures.

Video Door Entry Station

Residents benefit from secure access management through a video door entry station, adding an extra layer of safety.

Access Control

Restricting unauthorized entry, an advanced access control system is in place, ensuring only authorized individuals gain entry.

Digital Door Lock

Cutting-edge security is guaranteed with digital door locks, fortifying the integrity of entrances.

Video Door Phone

Residents enjoy heightened security with video door phones, allowing visual verification of visitors before granting access.

Network of Security Guards

A dedicated network of security guards further reinforces the safety infrastructure, providing a physical layer of protection.

SUSTAINABILITY

A conversation about
conservation in every corner

TARC Kailāsa takes pride in its commitment to eco-conscious responsibility. We have applied for an IGBC (Indian Green Building Council) certificate, a testament to our dedication to creating a sustainable and greener future for the present and many tomorrows to come. Join us in the journey towards a cleaner and healthier planet.

At TARC Kailāsa, our dedication to sustainability is deeply rooted in India's profound environmental heritage. We seamlessly integrate green features not only to ensure a more ecologically responsible lifestyle but also to redefine conscientious living in harmony with our cultural values.

This certification is more than an emblem; it's a narrative where luxury intertwines with ecological mindfulness, crafting an enriching story for residents who seek a harmonious blend of opulence and a planet-friendly ethos. TARC luxury extends beyond the physical realm—it's about creating space for the mind, where every corner reflects a sanctuary of tranquility and mindful living.

NATURE COMES HOME WITH BIOPHILIC LIVING

In the embrace of biophilic living, TARC Kailāsa breathes life into spaces, merging traditional concepts of water courts, forests, and courtyards. A design philosophy that not only connects people with nature but brings nature right to their doorsteps.

Stock image

GOING BELOW THE SURFACE

We've crafted permeable surfaces to facilitate rainwater recharge into the soil, while roof decking and expansive landscaping combat the heat island effect and reduce solar heat gain. This dual approach not only boosts energy efficiency but also optimizes the performance of air conditioning systems.

Stock image

Artistic Impression

BUILDING A RICH ECOSYSTEM OF NATURE'S INFRASTRUCTURE

Engaging a Blue-Green Infrastructure, TARC Kailāsa pioneers water conservation and management. From low-flow plumbing to advanced rainwater harvesting, a dual plumbing network, and smart water metering, every drop is conserved and strategically used to sustain the lush flora and fauna in every corner of the development.

CULTIVATING GREEN LUNGS

TARC Kailasa cultivates green lungs throughout its landscape, providing extensive green cover at various levels and locations. This deliberate integration enhances well-being, improves air quality, and fosters a sense of community living. Different typologies of green cover serve diverse functionalities, promoting experiential living.

It takes master craftsmen to create handcrafted living

Embarking on a journey of grandeur, TARC Kailāsa has forged powerful alliances with industry leaders. Each contributor, from diverse corners of the globe, brings their unique expertise to craft an Indian icon of lifestyle that surpasses industry benchmarks. This collaborative harmony embodies a commitment to excellence, blending international prowess, all dedicated to curating an unrivalled masterpiece for you. Together, we redefine luxury, innovation, and excellence, ensuring that every facet of TARC Kailāsa resonates with the highest standards of craftsmanship and distinction.

Building Engineering

Earth quake resistant structure

Our design adheres to Zone 4 standards, ensuring structural integrity and safety in seismic events.

Rapid Restoration

Our earthquake-resistant services infrastructure is optimized for quick power restoration.

Intelligent Lighting

Enjoy a timer-controlled external lighting system for enhanced energy efficiency.

Robust Fire Resistance

All infrastructure systems boast 2 to 4 hours of fire resistance, prioritizing occupant safety. (Type 1 construction)

Extreme Wind Design

Designed to withstand extreme wind conditions, providing unparalleled comfort for residents.

Aluminium Formwork Excellence

The use of advanced aluminium formwork ensures exceptional construction quality.

Flexible Spaces

Minimized structural intrusions allow for clear room spaces, offering maximum flexibility in layout customization.

Efficient Sewage Treatment

A membrane-based sewage treatment plant ensures effective waste management.

Reliable Power Backup

A fully equipped electric substation provides 100% power backup.

Ample Water Supply

Water tanks with full day storage capacity ensure 100% availability of fresh water.

Safety First

Firefighting systems are installed as per regulatory requirements.

Sustainable Power

Solar panels supplement the power grid, contributing to a more eco-friendly energy mix.

PERT Piping System

PERT, or Polyethylene of Raised Temperature Resistance pipes resist high water temperatures with enhanced processability and long-term strength. Maintaining water pressure in extreme temperature fluctuations, these flexible pipes minimize joints, reducing the risk of leaks or pressure drops and leakages.

LSZH Wiring System

LSZH wires feature jacketing and insulation materials that produce minimal smoke and non-toxic halogens in the event of fire or high temperatures. Compared to standard electrical cables, they offer superior fire resistance, emitting less smoke for easier evacuation in emergencies.

Ducted VRV/VRF with Air Purifier

All habitable spaces are air-conditioned with duct-able indoor units, eliminating the need for exposed units that constrain interior design. The system includes fresh air supply with Double Inlet Double Wheel (DIDW) fans for efficient cooling at lower energy consumption. Equipped with advanced filters and a Polarizer Ionizer, it reduces the risk of allergies or airborne diseases.

High-Speed Elevators

Experience reduced waiting, congestion, and travel time with high-speed elevators, enhancing overall convenience.

Insulation of Terrace Piping & O/H Tank

In response to NCR weather extremes, TARC Kailasa insulates terrace pipes and overhead tanks to control water temperature. This proactive measure reduces reliance on electrical gadgets, providing a more comfortable living environment.

Technical specifications

Expansive 3 and 4 bedroom homes meticulously handcrafted for a refined lifestyle.

Indulge in opulence with imported marble flooring in the living and dining areas.

Bedrooms exude elegance with laminated wooden flooring and complementing modular wardrobes.

Experience culinary delight in a fully equipped modular kitchen featuring top-notch appliances – Refrigerator, Washing Machine, Dishwasher, Microwave, Oven, Hob, And Chimney.

Enjoy climate control with VRF air-conditioning for the utmost comfort.

Washrooms feature a touch of sophistication with glass shower partitions and convenient medicine cabinets.

Step out onto expansive balconies adorned with laminated glass railings, offering a panoramic view of luxury.

Building Engineering - Mechanical, Electrical & Plumbing

MECHANICAL

AIR-CONDITIONING

VRF - Variable Refrigerant Flow technology

Advantages:

Achieve a 10-15% reduction in lifetime energy costs.

Opt for a visually appealing solution with a central outdoor unit.

Enhance interior aesthetics with ducted indoor units for premium finishes.

Experience year-round comfort with all-weather heating and cooling air conditioning.

INTEGRATED AIR-FILTRATION

Air conditioning system equipped with electronic air filters.

Advantages:

Attain superior indoor air quality with a focus on PM 2.5 particles.

Eliminate the necessity for extra air purifiers.

Enable real-time monitoring through an AQI or IAQ monitor

for continuous air quality assessment.

VERTICAL TRANSPORTATION

High-speed elevators.

Advantages:

Elevators operate at high speeds of 3.5 meters per second.

Interior air-conditioning ensures occupant comfort during transit.

Incorporates safety features in compliance with codal requirements, including ARD (Automatic Rescue Device), intercom, and more.

Designed to be disabled-friendly with features like braille signage, safety handrails, and wheelchair compatibility.

Ensures security through access control, CCTV surveillance, and amenities such as music and LED screens.

PLUMBING - WATER SUPPLY SYSTEM

P.E.R.T PIPES (POLYETHYLENE OF RAISED TEMPERATURES)

Minimum leakage

No pressure drop

Long life – low maintenance

FLUSH VALVE SYSTEM

No need for a cistern in water closets

No bacterial growth due to stagnant

water in cisterns

No maintenance

TEMPERATURE CONTROLLED PIPES

- Insulated pipes ensuring temperature-controlled water supply

- No temperature variations in water supply due to

extreme temperatures

NOISE-INSULATED FLEXIBLE PIPES

No noise inside toilets from flushing

Easy maintenance in case of adverse conditions

PRESSURE REGULATORY SYSTEMS

No pressure drop in all bathroom fixtures

ELECTRICAL

EARTHING

STRUCTURAL EARTHING

Advantages:

Enhanced safety & aesthetically better with no need for exposed building earth strips.

DATA & VOICE CABLING

Multiple ISP connections

Advantages:

Option for adoption of multiple service providers

Single Control Point (ONT Panel) for multiple service providers – ease of maintenance

CABLING

Low smoke zero halogen wires for all electrical outlets.

Advantages:

Low smoke & better visibility in case of fire compared to standard frls wiring.

Non-toxic fumes in case of fire - low suffocation enhances safety.

DETECTORS

Early warning systems for gas leaks, fire/smoke outbreak & medical emergency.

Advantages:

Early detection for gas leaks & fire in kitchen

Smoke detectors in all rooms

Fire alarm in video door phone

Panic button for all kinds of emergencies

POWER BACK UP

Resilient electrical infrastructure designed to withstand earthquakes with a minimal power restoration time.

Advantages:

100% power back up

EV CHARGING

Fast charging – 7.5 kw

Advantages:

50% less time to charge electrical vehicle

Single full charging station for every apartment

Crafting tomorrow with India's past

At TARC, our design ethos is a sublime fusion of India's timeless wisdom and opulent cultural heritage. Our architectural masterpieces effortlessly intertwine the tradition and modernity, crafting spaces that resonate with the profound spirit of our nation's illustrious heritage. Each creation serves as a testament to our unwavering dedication to not just commemorate India's glorious past but also to embrace its present and envision a future steeped in opulence.

Immersed in the essence of luxury, our endeavours transcend the ordinary, setting a new paradigm for sophistication. As purveyors of refined taste, we aspire to elevate Indian luxury to a global benchmark, creating unparalleled havens that epitomize extravagance and grandeur. At TARC, we are not just architects; we are custodians of an extraordinary legacy, sculpting a tomorrow where every detail is a nod to the regality that defines our nation.
