NATURE'S BLUEPRINT.

To call Marvel Selva Ridge Estate a gateway to heaven wouldn't be an exaggeration. For 22 acres of pure bliss await you as you enter. When you walk in, it's as if you have entered a green canvas on which a masterpiece has been painted with utmost care. A masterpiece that blends man-made luxury with nature's glory. State-of-the-art homes and modern amenities are cushioned in the lap of a forest reserve. The very feature that sets Marvel Selva Ridge Estate apart. Also a lot of planning and effort has gone in to preserve all the other existing trees that are scattered throughout the landscape.

As you enter the driveway, tall green trees standing on both sides welcome you. Take the first left turn to enter the seven storeyed apartments. The apartments sit comfortably surrounded by a beautiful view. While they overlook the central landscaped area from one side, the other side boasts of a picturesque forest reserve.

As you go further, you find yourself at the entrance of the villas. This road connects you to all the villas. The left side is lined with a row of Jade Villas along with the Mango Villa. The right side houses all the Emerald Villas. These villas are positioned on the top of the slope and enjoy great views of the forest reserve from one side. The lane that takes you to the villas is quiet, and has been constructed to perfection. So you can go for a walk, or cycle around the property in peace.

The central area between the villas and the apartments is nothing less than paradise. Inspired by agricultural farmlands, the landscape incorporates patches of flora in all shades of green. Amidst this riot of green, beautifully designed structures are packed with amenities of international standards. Every single structure has been built carefully to make sure all the existing trees remain intact. You can soothe your senses in the clubhouse, barbecue area, gym and the different types of pools.

The clubhouse floating comfortably on the reflecting pool is a medley of green and blue. While blankets of flora envelop it from all sides, the deep blue from the pool encircles it. The water from the lap pool makes its way to the wading pool and continues to the ground level of the clubhouse. It flows further to cascade into the lower ground level over a wall, creating a completely soothing ambience. This lower ground level has an open wellness deck where you can overcome a hard day at work through meditation and yoga. You can also enjoy a rejuvenating massage in complete privacy at the spa with a dedicated space for men and women. And follow it up with a refreshing session in the steam, sauna or Jacuzzi. However, if you're in the mood to socialise, call some friends over and party with them in the lounge area.

Besides the clubhouse, there is a large barbecue area where you can enjoy long Sunday brunches. Adjoining this area is a children's playground. Watch your kids play hopscotch here or go for a swim in the pool nearby. This area has another water body, a reflecting pool. What adds to its beauty is that existing trees are cradled amidst the water. More blue meets the eye as a serene wading pool flows silently towards the clubhouse on one side and joins the Olympic-sized lap pool on the other side.

The Olympic-sized lap pool is quietly tucked away in a cosy corner full of tall trees. It has been meticulously designed to resemble the still, calm water of a forest lake. Its deep blue hue bordered with lush greenery will virtually transport you to an exotic forest locale. So dive into the 50 metre lap pool and get immersed in tranquillity. Or float in mirth on the bubble beds. You can also bask in the warm sun and get a tan on the sun deck that floats above one side of the pool. The opposite side is thronged by eight wooden cabanas. A perfect place to just stare into the deep blue or catch a wink amidst the melodious chirping of birds. The lap pool also cocoons a fully equipped gym. Work out in the unique floating gym while you take in the beauty of the scenery through its glass panelled exterior. The gym comes complete with a shower area and changing rooms. You can also play table tennis and billiards in the game room below the gym.

The striking scenery and soothing amenities are a treat for your body, mind and soul. With so many ways to unwind and so much greenery to take in, every day at Marvel Selva Ridge Estate will be a great new experience.

NATURE MEETS MOOD LIGHTING.

With unrestricted access to the forest reserve, it's only natural that you spend more time outdoors. However, you can manage your home from wherever you are, thanks to the state-of-the-art home automation technology.

The apartment management systems in the form of touch screens and remote controlled interfaces let you control every appliance in your home even when you are not in. So whether you are taking a walk in the woods, or away travelling, you can virtually run your home through centrally located LCD touch panels or via the Internet.

The updated technology also addresses all your security concerns. With access controls in the lift lobby and CCTV surveillance cameras installed in various parts of the property, your home is safe at all times, whether you are in or outdoors.

More automation wonders are available on demand.

- Keep your CD/DVD player, audio/video servers, cable/satellite dish receiver, radio receiver and other equipments at one location and play them from any room, through the multi-room audio and video distribution
- Water the plants in your terrace garden depending on the moisture content in the soil
- Save energy through intelligently installed presence sensors and dimmers and also AC controls that judge the requirement and occupancy of a room
- Draw curtains and adjust the light settings at the flick of a finger

THE MANGO VILLA

The mango tree,
a huge, green, canvas
that sways to the tune of the wind,
with yellow succulent promises,
eager to fill your senses,
with fragrance, flavour and freshness.

Now imagine a home built around such a tree, flourishing year after year, right outside your window. Untouched, bursting with ripe fruit, growing side by side with you. A home where Mother Nature and man-made luxuries live in perfect harmony. Welcome to the ripest form of indulgence. Welcome to the Mango Villa.

With a huge mango tree at the heart of its blueprint, the three storeyed Mango Villa has been designed while preserving nature to its utmost. The 22000 square feet villa has been crafted to perfection such that every tree remains untouched and stands sacrosanct.

A gate flanked by a beautifully structured cabana, opens into a lush green garden that envelops the length and breadth of the villa. Spread across 12100 square feet, it merges seamlessly with the surrounding greenery and opens into the landscaped area from the other side. A part of the garden converts itself into a party lawn, perfect for entertaining guests. As your eyes pan from fresh green to deep blue, you find yourself in front of a 75 feet serene swimming pool that's all yours. The vast outdoor decks adjoining this area let you do whatever it is that you love. Unwind, read a book, lounge by the pool or simply stare into the wallpaper-like view.

As you move indoors, so does the forest. Huge glass sliding doors panelling one side of the ground floor reflect the outside greenery on the stylish walls inside. All the rooms are open, airy and bright, thanks to the 14 feet high ceiling. The open plan living room spread across 1300 square feet is enormous to say the least. Adjoining the living room lies a state-of-the-art, private, acoustically designed home theatre room. Now watching your favourite blockbusters will feel like a trip to the multiplex.

The kitchen on the other side of the ground floor is just as breathtaking. Sip on wine, catch up with the family over elaborate meals in the grand and spacious formal dining area alongside the open kitchen. The dining area overlooks the beautiful view of the soothing pool from one side and the lush greenery from the other two sides. A separate wet kitchen adds to your convenience and leads into the service yard, with a separate entrance to enter or exit the villa. It is also connected to the servants' quarters and the utility room.

The lavish lobby serves as the main entrance to your home. This main, grand entrance is on the first floor and is made up of a three storeyed spiral staircase that lets you move through the villa seamlessly. Adorned by a glass enclosure that offers protection from the sun, the spiral staircase looks like a work of art. Along with a staircase, the lobby also has a private elevator that lets you move through the villa in a matter of seconds.

The first floor redefines the word 'space' with its 12 feet high ceiling. It has four en-suite bedrooms that come with either teak-wood or imported marble flooring according to your choice. While all the bedrooms overlook the landscaped area, three bedrooms enjoy a sit-out area with a stunning view.
