

There has long been a melting pot of a number of cultures, of influences that, when combined, are well. From the way they live to the way they work. Spain has a rich, vibrant culture.

Diverse notes... in more ways than one.

It's the fine blend of the classic Spanish touch and a contemporary design that makes Akme Encore more than a touch different. A stunning view overlooking a hub of the country life of Spain, ornate water, tiled and tiled walkways, every inch aimed to make Akme Encore truly a fresh breath amongst the merely stale.

In sync into the third...

Following the inception awarded to Akme Encore and Akme India, it was but natural that there be an Encore. And here it is... with overtones of Spain. Akme Encore. A symphony of design, space and colour - a world, where celebration, music, dance, and laughter are the order of the day!

The orchestration of imagination.

Akme Encore has been conceptualized with a heightened sense of creative imagination and insight. You will sense harmony, as well as the interweaving of design in relation to space, as a blend of elements in the Akme Encore, the building. All combining to make a perfect orchestration of architectural beauty.

A symphony in design.

Akme Encore comprises some majestic towers, dotted together with a sense of symmetry. Distinguished with polished and graceful styling, each will give you the sense of a royal hearing and truly class in look, making Akme Encore the hallmark of all developments.

The mood. The settings.

Spread over an area of 8 acres of land, Akme Encore comprises 24 towers and three balconies apartments and penthouses, set amidst a lush green setting. It's a kind of vibrant life, with all the worldliness amenities that you could ever ask for - a celebration of a home which is truly your world.

The sense of the grand... an opus.

Akme Encore ensures that you have all the right amenities that you would want. A clubhouse with swimming pool, a health club with exclusive steam rooms and saunas, a gymnasium and a game of indoor and outdoor recreation are but some of the amenities available at Akme Encore.

Round-the-clock security, advanced fire safety and security systems. But of course! Eminent, too, the latest in telecommunication and standby power facilities.

A situational melody.

Located at Brackenhall, on road to Whitefield, Akme Encore is situated in a prime location, for that name of tranquility. Yet, it's close to the city, with the city centre and IT workspace just a few miles away and is close proximity to the main ring road.

As the maestro conducts...

Leading the virtuoso team that's behind Akme is industrial titan Anil Nanda, the Chairman of Akme Projects Limited. With successful developments and projects in the NCR, Coimbatore, Ludhiana, Mohali and Bangalore, Akme Projects truly has a pan-India presence and is proud of working with only the leading names in the industry.

Welcome to Akme Encore. Welcome to the world of the perfect note.
