

Invest in a
home worthy of gold.

THIS FILE / BOOKLET IS STRICTLY FOR ARCHITECTURAL REVIEWS
AND INTERNAL CIRCULATION WITHIN TEAM ONLY

Homes even the skies will admire.

Homes are meant to be an asset - and that's another reason some 'buy' a home, and some 'invest' in a home. Either way, a home is a place to reap rich returns from. Whether the returns are emotional or financial - is what differs from person to person. But whatever the reason, a home should always look good. Here's Svadha Kollaar, designed to look beautiful even from atop the earth.

Complete from every perspective.

Svadha Kollaar has a Biophilic Design, that is, one that increases occupant connectivity to the natural environment through the use of nature in a direct or indirect way.

Plus, Kollaar is a smartly designed commune demarcated into three units - Block A, Block B, and Block C that nestle 3 BHK and 2 BHK apartments ranging from 1750 sft to 1215 sft.

It's a complete gated community that's moderately sized and will impress you with everything, from a nice entry to other minor but significant aspects essential for today's living.
