an aura so
inviting
and inspiring us

Why live amidst the rush of a city, when you can own a piece of calm for yourself. Presenting Dates County, a place that inspires.

As independent as the generation of today and a bliss for new-age property-owners, Dates County is a 300+ acre vast landscape that runs on its own, with every necessity fulfilled inside the massive property scape. Located in the South of Hyderabad, it's an apt place to dwell with nature, and get inspired.

Blending contemporary architectural designs with traditional style of living and right in nature's lap, Dates County is a dreamscape planned with facilities – both modern and new-age. When you're here, you can't stop but feel the joy with the lure of the green, with a stream flowing through the property and roads that resemble city life – making it all so wonderful.
