Riverdale
Heights

Duville Estates Pvt. Ltd.

Duville Estates is a privately held company promoted by Mr. Behram Dubash. The Dubash Family is part of the DBC Group, founded in 1810, which commenced its journey as a Shipping company and now is an acclaimed diversified business group.

The Company's foray into real estate began with the accumulation and maintenance of various parcels of lands over the past two decades. With its ability to create value for customers and partners, the Family has developed 11 residential and three commercial establishments in South of Mumbai and Mumbai's Northern suburb.

Value creation for its customers and Ethics has been the key attribute of the Company since its inception to date. And this same ethos defines the customer-centric culture of Duville Estates.

Through its iconic residential project 'Riverdale', Duville Estates aims to give its customers a superior product, create new benchmarks and give Pune something to be proud of.

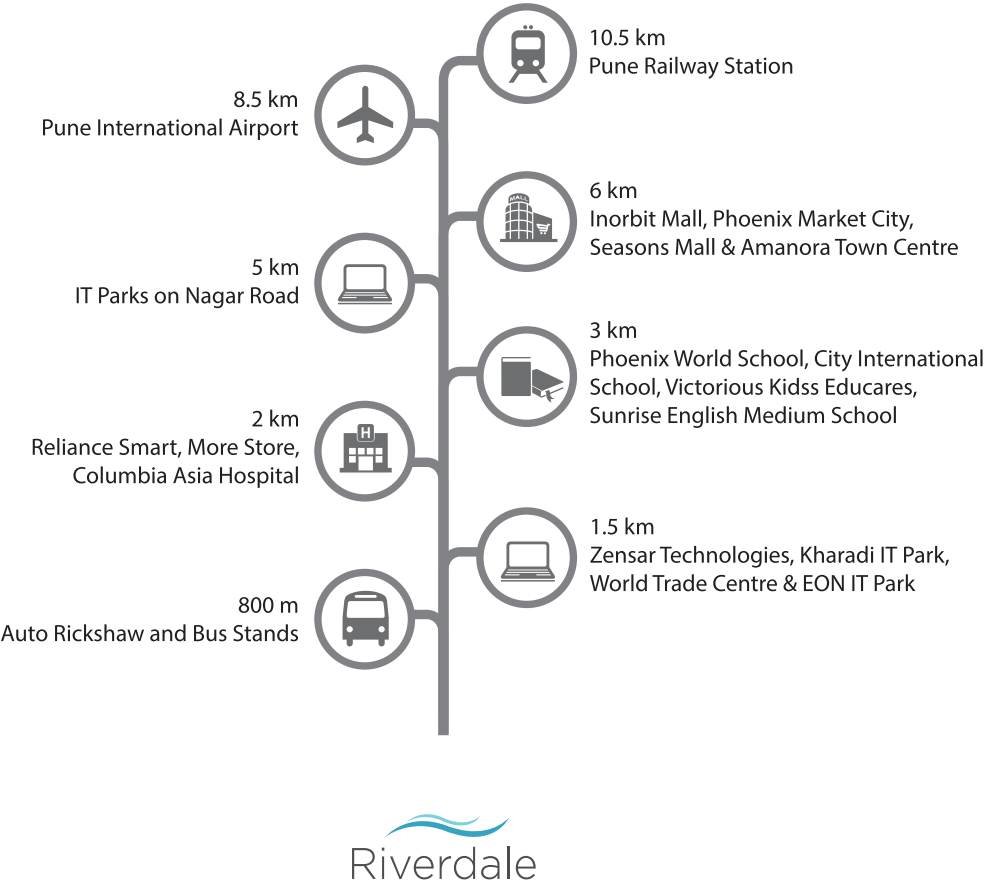

Kharadi

The Futuristic City

Known as the city's new IT Hub, Kharadi has come to stay as the planned city of the Eastern region of Pune. With superior connectivity, an airport in proximity and steadily growing business zones, Kharadi is home to many global and domestic companies. This premier business district is commanding a steady price appreciation.

Kharadi is currently well connected to other areas Pune via arterial roads such as Nagar Road and Mundhwa Road. In addition, the upcoming Kharadi-Shivane 24m Riverside Road will further ease access to and from Kharadi, and bring the commute time to areas such as Koregaon Park and Kalyani Nagar down to only a few minutes.

Kharadi houses a thriving social infrastructure comprising of lifestyle centres, shopping malls, some of the finest hospitals, clinics and speciality treatment centres as well as the choicest of schools and higher-education institutions. Kharadi is also home to some of the city's major commercial hubs, including EON IT Park and the World Trade Centre.

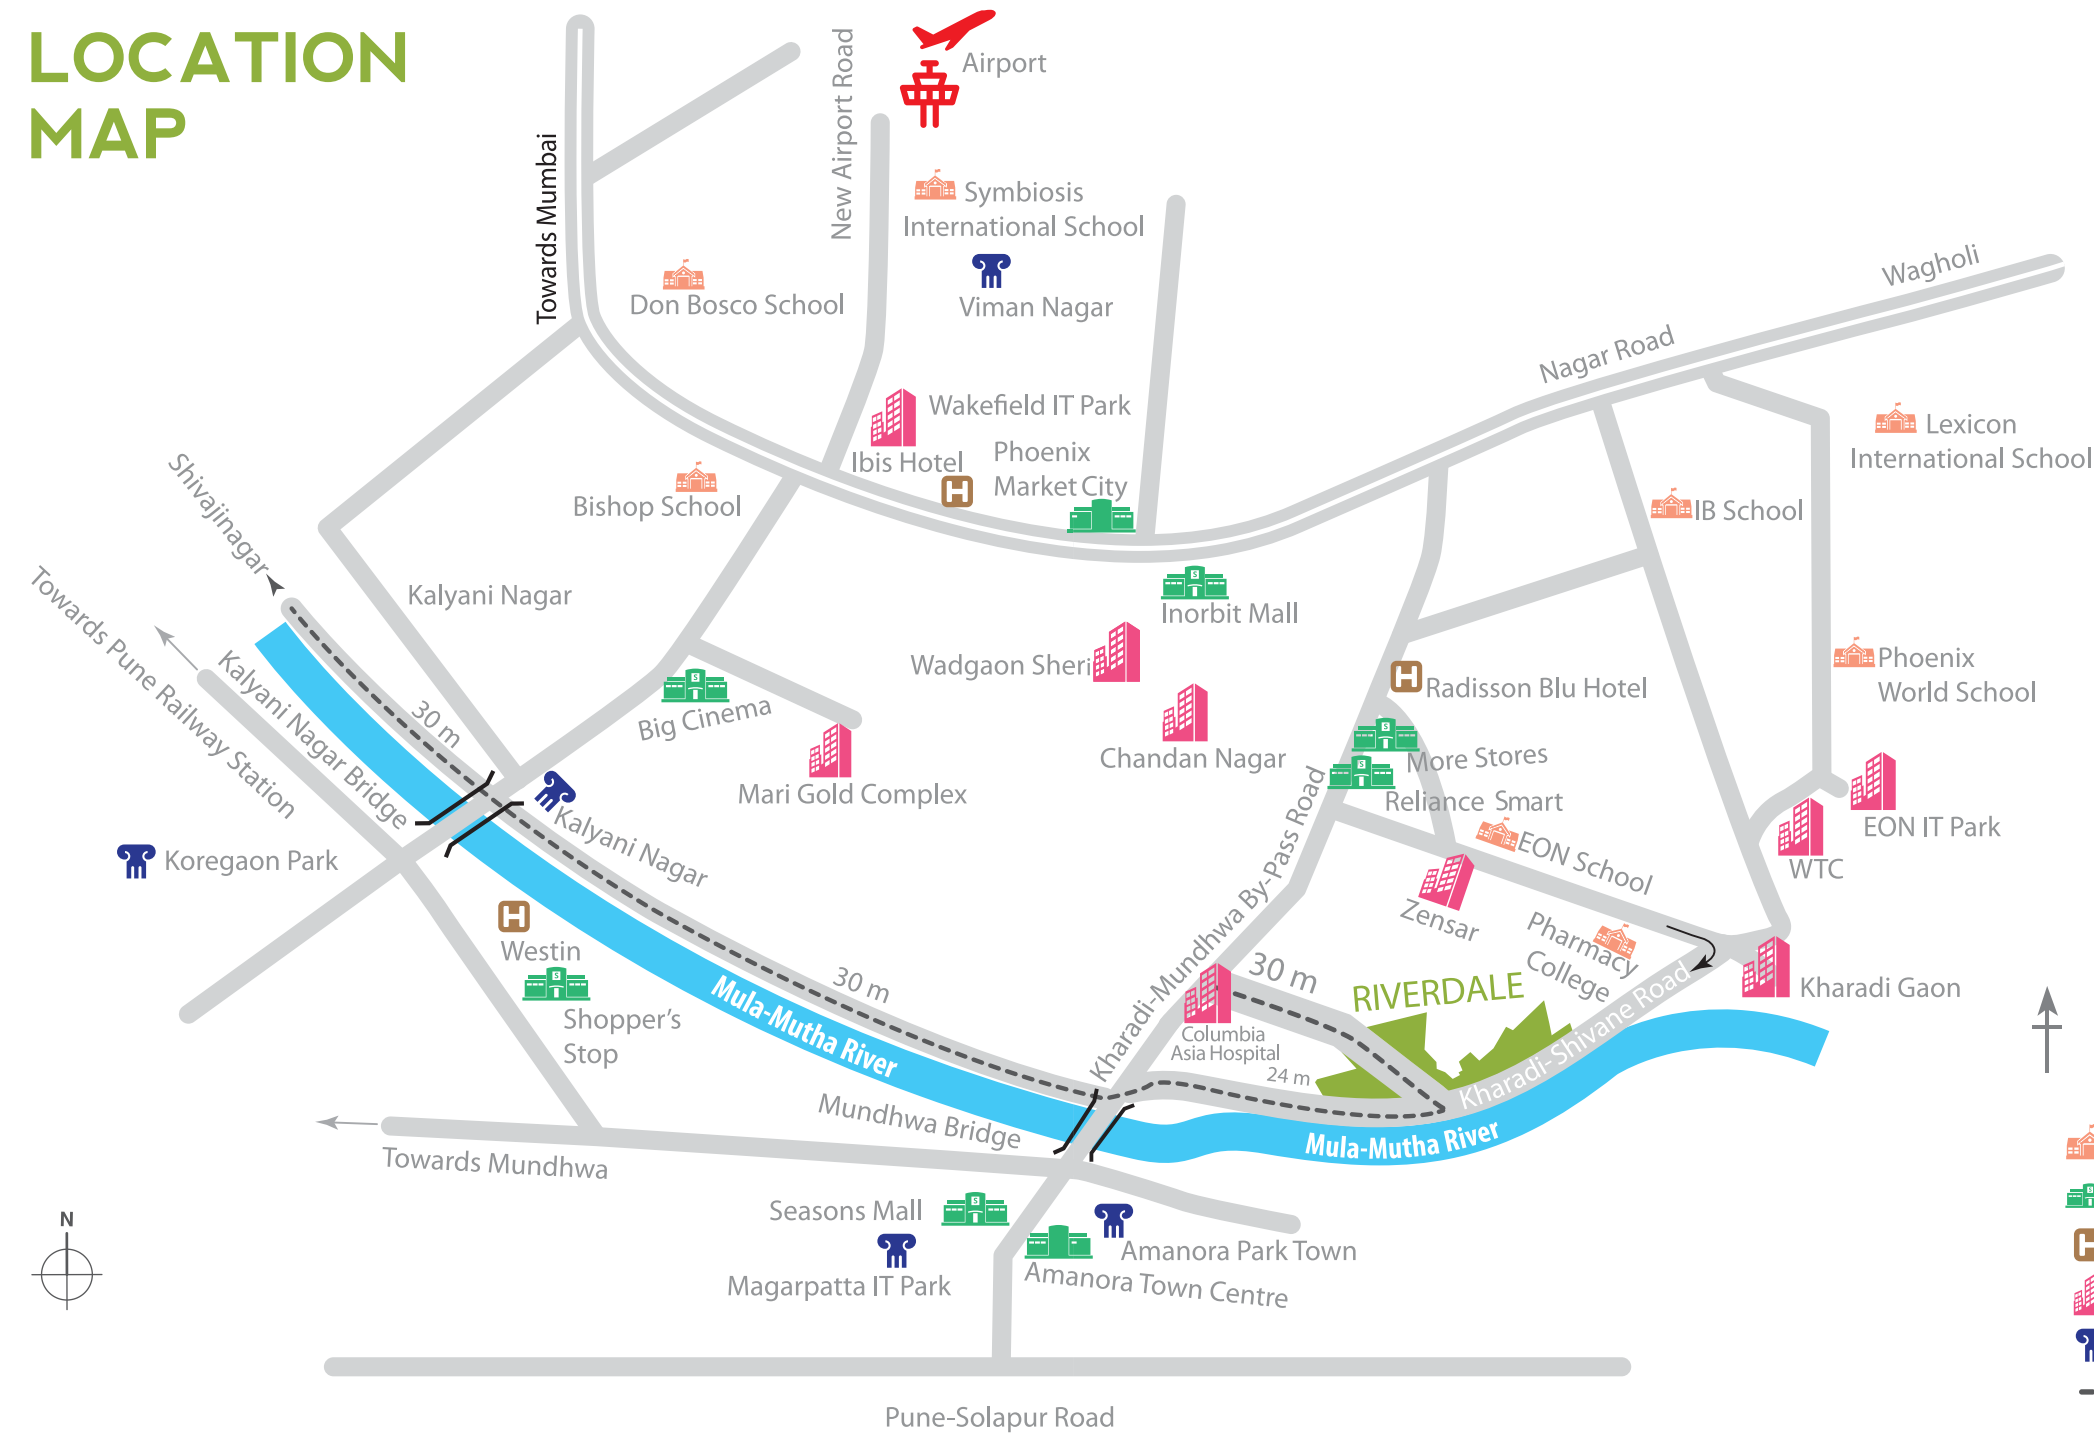

Welcome to Riverdale

We invite you to celebrate the life and lifestyle that defines your tastes. Rediscover yourself through the tranquillity of the river, the pristine landscape and the world called 'Riverdale' that offers an unparalleled living experience.

Master Plan

Riverdale

With incredible views of the river, the city and the horizon beyond, Riverdale is an exclusive address to boast, located in Kharadi, the upcoming IT hub of Pune. Riverdale is a new 31-acre landmark on the banks of the Mula-Mutha River – A project that redefines the taste of fine living.

“The architectural concept is inspired by the lush natural setting: taking its cues from the ever flowing river and lush green surroundings, the development seeks to distil these elements into an elegant and iconic form,”

Jonas Upton-Hansen, Founder & Managing Director
UHA London

Riverdale Heights

Riverdale Heights is a premium development with spacious 1 and 2 Bedroom apartments. Designed by UHA London, the 5 buildings exude a modern design with a dominant use of glass. The 23-storey towers house apartments intelligently designed to optimize space and give a new meaning to everyday living, while presenting a bold and confident vision of the future. Texture, grandeur, and space define the interior with a distinct modern sensibility. Riverdale Heights offers you the chance to experience luxury at its best, the chance to experience life ahead of the curve.

Construction Technology

Aluminium Formwork

Product quality and Construction timeline are paramount at Riverdale. In order to build high-quality sturdy intelligent homes, we at Duville Estates are using state-of-the-art Aluminium Formwork technology.

Aluminium Formwork is the latest in new-age construction technology, which improves performance efficiency and helps meet delivery timelines whilst being environment friendly. Compared to the existing Euro-form (made of timber and steel), Aluminium Form has more accuracy in horizontal and vertical structures, improves quality and structural performance. In addition, it creates a safe working environment for construction workers to work in.

Advantages:

- More seismic resistance
- Increased durability
- Lesser number of joints and reduced leakages
- Smooth finishing of wall and slab
- Uniform quality of construction
- Negligible maintenance
- Faster completion
