

SAY GOODBYE TO YOUR LANDLORD

NO MORE COMPROMISE.
BE THE PROUD OWNER OF A HOME.

ROHAN
ABHILASHIA

— FULFILLING ASPIRATIONS —

30 ACRES OF GOOD LIVING

**BE THE PROUD OWNER
OF A HOME.**

To be able to live by your own code is dream living come true. Your home at Rohan Abhilasha is designed with great regard to aesthetics and within a budget you will appreciate. Walk home whenever you want, and find out what being your own master feels like.

THE HOMES

Each home is laid out over an expanse of nearly 30 acres, ensuring you'll never run out of the space you need. Each block bears its own distinctive identity, especially built with the surrounding landscape and greenery in mind. The residences thoughtfully account for more than just living. Rooms, entrances and exits are designed with the playful liveliness of children and senior citizens in mind, allowing freedom of movement for people as well as the breeze.

Choose your own address from neatly designed 1, 2 and 3 BHK homes.

HOMELY BY DESIGN

What we love most about what we do is giving you the best of both worlds. In this case, privacy that still feels open Homes are designed with a double-height terrace where the bedrooms and living rooms open up to a glorious view without compromising on your privacy. Common corridors overflow with light and crisp natural air, with multiple spots that encourage conversation and integration.

BUILT AROUND LIFE

30 acres is a lot of space! And we've made sure every square inch is united in both form and function. All traffic is limited to the peripheral roads, just to make sure you never miss the view. Functional aesthetics work on two levels with the multi storeyed car park that grants easy access in and out of the buildings. Uninterrupted walkways help you make the best of your long, leisurely walks. Good health takes prime estate in your life at Rohan Abhilasha, with a gymnasium that overlooks a view that's worth all the sweat. An additional, secluded swimming pool for women makes every dip nothing short of a thoroughly personal ritual. Individual blocks are subtly differentiated with the help of landscaping-colour-coded with flowering plants that blossom at different times of the year. Small yet significant touches such as variations in the design of stairs, entrances and motifs help give each block a sense of individuality. Architecture, after all, is design at work.

PLUS HOMES

Over years and years of designing living spaces, we found that every home needed to be more than just a home. Making a selection of some of the things that matter most to living, we designed what we now call the Plus Home. Plus stands for Perfect ventilation, Lively light, Utmost privacy and Smart space. Because a home is often where life's best moments are.

ECO HOMES

We believe that life must exist alongside nature, not at the cost of it. We like to call it 'ECO Housing'. Every housing plan is designed to minimise alteration to the natural terrain, making sure that energy is conserved wherever possible.

For starters, sewage water is recycled and used for gardening and flushing. To help prevent any further depletion of ground water levels, rain water harvesting comes to our aid. While wet waste is used to nourish the vegetation. Across every Rohan property in general, fly ash, is adequately used in the construction. Owing to the natural light and ventilation conceived by the architecture, the thermal roofing helps keep the interiors cooler, resulting in decreased use of electricity.

OUT IN THE OPEN

Open spaces are integral to our design principles. Common corridors connecting different units are made to be nourished by natural light, with gaps between the blocks channelling wind, carrying fresh breeze in and out of spaces. Courtyards, parks and lobbies are created to look and feel free and unrestrictive.
